

# five reasons **YOU** need a prenup

## 1. IT'S A SMART CONVERSATION—NOT A PESSIMISTIC ONE

A prenup encourages honest discussions about finances, goals, and values. Many couples find it strengthens trust rather than undermines it.

## 2. PROTECTS FAMILY & BUSINESS INTERESTS

From family-owned companies to future inheritances, a prenup ensures outside interests are shielded and succession plans stay intact.

## 3. REDUCES POTENTIAL FUTURE CONFLICT

Clear agreements upfront can prevent emotional and expensive disputes later. When expectations are defined early, there's far less to fight about.

## 4. SUPPORTS SECOND MARRIAGES AND BLENDED FAMILIES

When children or prior commitments are involved, a prenup helps preserve intended inheritances and reduce the potential for future disputes.

## 5. GIVES YOU GREATER CONTROL OVER YOUR FUTURE

Rather than leaving important decisions to state law, a prenup allows you to define terms that reflect your unique priorities and circumstances.
